WELFARE TO WORK

JULY 2024 NEWSLETTER

“NEVER UNDERESTIMATE THE POWER YOU HAVE TO TAKE YOUR LIFE IN A NEW DIRECTION.”

GERMANY KENT

This is the first edition of the WTW Newsletter, you can expect these monthly with information about the program and other opportunities and events happening in the county.

MYTH VS FACT

Myth: There aren't enough jobs for participants in rural areas.

Reality: There are many open jobs nationwide, not only do most participants live in areas with workforce programs (such as One Stop or the WTW program), many states offer virtual programs to reach even more participants. There are many different ways to satisfy the work requirements – from job search training to internships. Employment, volunteer opportunities (such as Pneumacare) and training programs are within reach in Colusa County.

The Welfare to Work program has helped me out immensely. The program has offered great services such as providing daycare for my children for me to get to and from school and have time to focus on studying. The program has also helped me pay for my school books and school supplies along with other necessities if I needed them. The case workers do a great job reaching out to do check-ins to see how we are doing or if we need any other resources. I highly recommend being a part of this program for anybody that is in need of some extra guidance.
